

## Safety Data Sheet

FLUIDE DA

Page:1/6

Product code: P266-0000644-19

Issue : 1

Date: 11/05/2001

### PRODUCT LABELS

LABELLING (standard or EU) Not applicable  
TRANSPORT LABELLING : Not applicable

### 1. Product and company identification

Commercial name: FLUIDE DA  
Product application: Hydraulic fluid  
Company name: TOTALFINAELF LUBRIFIANTS  
Address: 16, rue de la République  
92800 PUTEAUX  
FRANCE  
Emergency number of the company : 33 (1)41.35.40.00  
Fax: 33 (1)41.35.84.71  
See local particulars at end of sheet  
Emergency phone numbers : - Centre anti-poisons : ORFILA (FRANCE): 33 (0) 1.45.42.59.59

### 2. Composition / information on ingredients

PREPARATION  
Chemical nature: Product with a synthetic oil base  
Substances contributing to hazards : Alcanes ramified ( Xn - R 65) ... max 78 %  
Impurities contributing to hazards: None to our knowledge

### 3. Hazard identification

- Adverse human health effects : Under normal conditions of use, the product holds no danger of intoxication  
- Environmental effects : Don't rejet this product into the environment  
- physical and chemical hazards : No specific risk of fire or explosion under normal contitions of use

### 4. First-aid measures

IN CASE OF SERIOUS MANIFESTATIONS, CALL IN A DOCTOR OR EMERGENCY MEDICAL CARE

Route of exposure :

- Inhalation : Inhalation of heavy concentrations of vapour, fumes or spray, may cause mild irritation of the throat.  
Transport the person into fresh air, keep warm and allow to rest  
- Contact with the skin : If the skin is exposed to high-pressure spray, the product may enter the human organism.  
In all such cases the affected person must be taken to hospital, even if no sign of injury can be detected  
Immediately remove all soiled or stained clothing  
Wash the affected area immediately and repeatedly with soap and water.

# Safety Data Sheet

**FLUIDE DA**

Page:2/6

Product code: P266-0000644-19

Issue : 1

Date: 11/05/2001

- 
- |                           |   |
|---------------------------|---|
| - Contact with the eyes : | Keep eyes open and rinse immediately and repeatedly with water for at least 15 minutes  |
| - Ingestion :             | Possible risk of vomiting and diarrhoea<br>Do not induce vomiting to avoid the risk of aspiration into the respiratory tract<br>Give nothing to drink |
| - Aspiration :            | If the product is believed to have entered the lungs (in case of vomiting, for example), take the person to hospital for immediate care               |
- 

## 5. Fire-fighting measures

- |                         |   |
|-------------------------|---|
| Flash point:            | See heading 9   |
| Fire extinguishers:     |   |
| - suitable :            | Foam, carbon dioxide (CO <sub>2</sub> ), powder   |
| - not suitable :        | do not use water jets (stick jets) for extinguishing fire since they could help to spread the flames.           |
| Firefighter protection: | An insulated breathing apparatus must be worn in confined premises with heavy concentrations of fumes and gases |
- 

## 6. Accidental release measures

- See also heading 8 and 13
- After spillage / leakage
- |            |   |
|------------|---|
| - on soil  | Surfaces on which the product has been spilled may become slippery<br>Avoid discharge of the material in a stream or a sewer or cause ground contamination.<br>recovery by physical means<br>Contain and collect the spilled product with sand or any other inert material.<br>In the event of a major spill, inform the competent authorities if the situation cannot be brought under control rapidly and efficiently |
| - on water | Use floating absorbent material to be removed mechanically<br>If the material has been discharged into a stream or a sewer, inform the authorities of the possible presence of floating materials   |
- 

## 7. Handling and storage

### HANDLING

- |                                    |   |
|------------------------------------|---|
| - Technical measures :             |   |
| . prevention of user exposure      | Provide adequate ventilation in case of the potential formation of vapour, fumes, mist or spray<br>Take all measures to reduce the risk of exposure, in particular to used or waste product<br>Keep away from flammable material; keep away from food and beverages       |
| . Prevention of fire and explosion | Empty containers may contain flammable or explosive vapours<br>There is a fire hazard associated with rags, paper or any other material used to remove spills which become soaked with product<br>Avoid accumulate of these: they are to be disposed off safely after use |

# Safety Data Sheet

FLUIDE DA

Page:3/6

Product code: P266-0000644-19

Issue : 1

Date: 11/05/2001

- Precautions :  
Avoid static electricity build up with connection to earth.  
Set up machinery and equipment so as to avoid the risk of accidental spills or splashes onto hot machine parts and electrical contacts (on joint failure, for example)  
Prevent oil leaks in pressure circuits resulting in a fine inflammable spray (the flammability limit for oil mist is depressed when concentrations of about 45 g/m<sup>3</sup> are reached)
- Safe handling advice :  
Avoid contact with strong oxidizing agents  
Use only hydrocarbon-resistant containers, joints, pipes etc...
- STORAGE
- Technical measures :  
Make the necessary arrangements and take all measures to prevent water and ground pollution
- Storage conditions :  
. Suitable  
Store at room temperature, protected against contact with water and moisture, and away from any source of ignition  
Keep containers closed when not in use
- . To be avoided  
Do not store exposed to the elements
- Incompatible products :  
Dangerous reaction with strong oxidizing agents
- Packaging materials :  
. Recommended  
Use only hydrocarbon-resistant containers, joints, pipes, etc.  
Keep in original container if possible  
Otherwise, transfer all indications on the regulatory label to the new container

## 8. Exposure controls / personal protection

- Engineering measures:  
Use the product in well-ventilated premises  
When working on enclosed place (tanks, reservoirs...), make sure that atmosphere is not suffocating and/or wear recommend equipment
- Personal protective equipment
- Hand protection:  
Impermeable hydrocarbon-proof gloves  
recommended material: nitrile , neoprene
- Eye protection:  
Goggles, in case of splashing
- Skin and body different hand protection:  
As required, wear a face mask, hydrocarbon-proof clothing, and safety boots (when handling drums)  
Don't wear ring, watch or similar thing which will be able to hold the product and may give rise to some skin diseases
- Industrial hygiene  
Avoid prolonged and repeated contact with the skin, especially with used or waste product  
Immediately remove all soiled or stained clothing.  
If the product comes into contact with the skin, wash the affected area immediately and repeatedly with soap and water  
Use no abrasives, solvents or petroleum spirit  
Do not use cloths stained with the product to dry hands

Product code: P266-0000644-19

Issue : 1

Date: 11/05/2001

Dont put the product-soaked rags in the pockets of working clothes  
Do not eat, drink or smoke while handling the product

## 9. Physical and chemical properties

Appearance:

- Physical state:

Clear liquid

- Colour:

Orange

Odour:

Characteristic

pH:

Not applicable

Specific temperatures  
of change in state

Flash point:

$\geq 145^{\circ}\text{C}$  (ISO 2592)

Auto-ignition temperature:

$> 250^{\circ}\text{C}$  (ASTM E 659)

This temperature may be significantly lower under particular conditions (oxidation on high surface areas)

Explosion limits:

Not applicable

Density:

About 820 kg/m<sup>3</sup> at 15°C

Solubility:

- in water:

Insoluble and immiscible

- in organic solvents:

Soluble in many common solvents

- Viscosity:

Kinematic viscosity at 100°C: about 5.95 mm<sup>2</sup>/s

## 10. Stability and reactivity

Stability:

The product is stable under normal temperatures of storage, handling and use

Dangerous reactions:

Not dangerous reaction known under normal conditions of use, to refer to the technical notice

- Conditions to avoid:

Heat (temperatures above flash point), sparks, ignition points, flames, static electricity

- Materials to avoid:

Avoid contact with strong oxidizing

Dangerous decomposition products:

Incomplete combustion and thermolysis produce more or less toxic gases such as CO, CO<sub>2</sub>, various hydrocarbons, aldehydes and soot

## 11. Toxicological information

ACUTE TOXICITY/LOCAL EFFECTS

- Inhalation:

Risk is improbable under normal conditions of use

Inhalation of important concentration of vapour or aerosols may cause irritation of the upper respiratory tract.

- Contact with the skin:

Risk is improbable under normal conditions of use

If the skin is exposed to high-pressure spray, the product may enter the human organism.

# Safety Data Sheet

FLUIDE DA

Page:5/6

Product code: P266-0000644-19

Issue : 1

Date: 11/05/2001

	In all such cases the affected person must be taken to hospital, even if no sign of injury can be detected
- Ingestion:	In case of ingestion of small quantities, no important effect observed. in case of ingestion of larger amounts: abdominal pain, diarrhoea, ...
SENSITIZATION	To our knowledge, the product dont induce sensitization
CHRONIC TOXICITY OR LONG-TERM TOXICITY	
- Contact with the skin:	Characteristic skin affections (oil blisters) may develop following prolonged and repeated exposure through contact with stained clothing

## 12. Ecological information

Mobility:	
- Air:	there is a slow loss by evaporation.
- Ground:	Given its physical and chemical characteristics, the product generally shows little mobility in the ground
- Water:	The product is insoluble; it spreads on the surface of the water
Persistence and degradability:	Experimental data on the finished product are not available
Ecotoxicity:	The virgin product is considered to present no danger for land-growing organisms. It is considered to present a little danger for aquatic life. no information available for used product

## 13. Disposal considerations

Waste disposal :	Dispose in a safe manner in accordance with local/national regulations If need be, collection by an authorized waste contractor and regeneration or incineration in an approved installation
Used packaging disposal :	Conform to the regulation in effect

## 14. Transport information

UN Number :	unregulated
Road (ADR) / Rail (RID)/ River (ADNR)	Not restricted for transport.
Marine (IMO-IMDG)	Not restricted for transport.
Airline (ICAO / IATA)	Not restricted for transport

## 15. Regulatory information

### EUROPEAN REGULATIONS

- EC labelling	
- Symbol(s)	None
- R Phrase(s)	None
- S Phrase(s)	None

## 16. Other information

This data sheet conforms to standards defined by directive 93/112/EEC

Date of current version: 11/05/2001

Supersedes previous Safety Data Sheet of:

---

"This Safety Data Sheet serves to complete but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of our knowledge at the date indicated hereabove.

It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk.

The information given herein in no way dispenses the user from knowing and applying all provisions regulating his or her activity. The user bears sole liability for the precautions required when using the product.

The regulatory texts indicated herein are intended to aid the user to fulfill his obligations. This list is not to be considered complete and exhaustive.

It is the user's responsibility to ensure that he is subject to no other obligations than those mentioned."
